# Prescott School

Emails for this newsletter were pulled from Aspen on 8/2/22. If you have an updated email, please contact Clerk Ms. Williams at [clpalmer6@cps.edu](mailto:clpalmer6@cps.edu).

September 16, 2022

Prescott families and friends,

As we look to the 5th week of the school year, Prescott students continue to dig deep into content, concepts, and skills. This week I saw 2nd graders developing their phonemic awareness, 6th graders figuring out ways to measure Room 202 and draw maps to scale, 4th graders devouring books, 1st graders reading in partnerships, and students enjoying recess and lunch.

Looking forward to the coming weeks with you!

Erin Roche, Principal

Meghan Breyer, Assistant Principal

**Physical Education**

Hello Prescott Community! Week four has come and gone, and we are nearing the halfway point for the first quarter of the school year.

This week's photos highlight the work of Ms. Blundy's 2nd grade students (Room 106). Students have been working on throwing and catching activities, including utilizing velcro paddles and balls. The students worked on underhand tossing, overhead throwing, maintaining eye contact with the ball, and reflex skills (catching). Students will continue working on these skills throughout their duration of PE class.

**Health Education**

Prescott Students K-8th grade will participate in the CPS Sexual Health Education (SHE)

program for school year 2023. Last year, Prescott Students did very well with being respectful to each other, asking great questions, received clarification, and busted some myths they had during the course. Thank you to the entire Prescott Community, Parents, and stakeholders for understanding the importance of health education.

For more information about the CPS SHE curriculum, including the updated curriculum for K-2, please visit the district's website: [CPS Sexual Health Education](#). Formal letters to the Prescott Community will be sent in the near future, so please be on the lookout! Thank you everyone for your support!

## Counselor's Corner

### All families:

If you are interested in having your child receive an eye exam at school from Ageless Eye Care, please fill out the following consent form. This is the same form sent home in the health packet at the beginning of the year, so if you have already submitted it, you do not need to submit it again. If you would like a paper copy of the form, please reach out to Ms. Mathews. ([English](#) / [Spanish](#))

### 8th grade families: Please be aware that:

- **NEW DATE** - GoCPS applications will open 9/21.
- You can also check out the [Prescott High School Application Website](#) for frequently updated information on all types of Chicago high schools and important dates/deadlines.
- The Daniel Murphy Scholarship application is due October 3rd. Visit their [website](#) to determine if your child would be a good fit for this opportunity.

### [Counseling Referral Form](#)

## Restorative Practices

### Restorative Conversations

During our staff training days in August, all staff took part in 6 hours of Restorative Practices Training. The aim of the restorative approach is to develop our community and to help everyone in our school feel more comfortable managing conflict and tension by repairing harm and building relationships. For

effective teaching and learning to take place, we believe that there should be good relationships within the school. The restorative approach puts repairing harm done to relationships at the heart of the school.

This allows us to build, nurture and repair relationships. The restorative approach gives us two main opportunities:

- It primarily provides those who have been harmed (victim) with a forum to 'have their say and be heard', which is vital to the healing process.
- Secondly it presents the offender (harmer) with an onus of responsibility for their actions, an opportunity to make some form of retributive acknowledgement.

---

**PLEASE WELCOME OUR NEW SECURITY, MS. WALLS to the Prescott Wolfpack. She has been a Teacher Assistant in CPS for five years and worked with children for over a decade. Her background in proactively building relationships with and among students dovetails neatly with reinventing the Security position to be a supportive guide rather than a reactionary response. She will perform traditional roles to ensure school safety as well as work closely with Counselor Ms. Mathews on social-emotional learning (SEL) for individual students, Restorative Practices Coach Ms. Lindsey on RP, and teachers and staff to help individual students grow. She will help students so they can self-monitor and self-regulate-- i.e., preventing harm. Ms. Walls earned her BA at Roosevelt University and her AA at Harold Washington College. Her first day with us was yesterday. Please introduce yourself and welcome her warmly to the Prescott School community!**

---

## Early Dismissal, Alternative Pick-up, and Building Access

*Note: This policy began eight years ago but was put on hiatus at the beginning of Covid and the Remote Learning/Hybrid school year as well as last year. It is back in place beginning Monday. Thank you for planning in advance.*

Prescott School

Effective date: September 2, 2014

### **Early Dismissal and alternative pick-up**

A high volume of early dismissals causes frequent interruptions of classroom learning activities. In order to minimize such interruptions, the following procedures are in place: Parents must notify homeroom teachers in writing via email or by note sent with the child on the day when early dismissal is required (emails must be sent by 7:30am on the date of dismissal). The notification must include the date and time of dismissal. If these notification deadlines are not met, students will only be released for early dismissal at the teacher's discretion or during classroom transition times, which usually occur at five minutes after the hour or 35 minutes after the hour. Students will not be dismissed between 2:45pm and 3:45pm without advance notification.

Getting messages to teachers regarding alternative adults picking up students is another cause of interruptions to classroom learning activities. The following procedures seek to minimize such interruptions.

- Parents who want their children to be released to an alternative adult should notify the teacher in advance and in writing (via note or email) by 7:30am of

the corresponding date.

- If a parent notifies the main office, but does not notify the teacher in advance, the child will be taken to the main office at dismissal and released to the alternate adult by the main office staff. If the notification is by phone, the alternate adult must be listed on the child's emergency forms.

(When children are sick and need to go home, the school will continue to contact parents).

## **Building Access**

At Prescott we want to continue to build on our strong parent involvement. At the same time, we have a need to ensure student, staff, and visitor safety by closely monitoring adult access and movement with our building. Accordingly, the following procedures are in place.

All non-staff adults must use the main entrance: All non-staff adults must enter the building through the main entrance (Wrightwood entrance) and immediately check in the main office. Only staff and students are allowed through other entrances.

**Visiting your child's teacher:** Parents and teachers are a team and to support that effort, we encourage parents to speak with teachers by phone, email, and in person. However, spontaneous meetings are not feasible because teachers need to prepare and conduct classes. Just as visitors may not see physicians "on-demand" at the doctor's office, parents and visitors may not "stop by" classrooms. Parents must schedule visits with teachers and check-in at the main office upon arrival. The office staff will then notify the teacher. In case of abuses of this policy, parent visitation may be restricted.

**Volunteers and meetings:** Parents and visitors who are attending a planned meeting or who are volunteering on a regular basis should enter through the main entrance and check-in at the main office.

## **Parking**

If you drive to pick up children, please respect our Prescott neighbors by parking legally. Do not block intersections, crosswalks, or alleys. Violators may be ticked by police. Thanks for keeping traffic flowing and keeping safe our students, families, staff, and our neighbors!

## **Early Dismissal, Alternative Pick-up, and Building Access**

## **Congratulations! Thank you! Help needed!**

**ALL students K-8 can participate in UFO for the entire year (every Friday)!** Thank you to everyone who donated extra this year to ensure that all students can participate!

We are excited to announce that beginning this fall, **Prescott will be participating in the Fresh Fruit and Vegetable Program!** It is a USDA grant funded initiative to increase student access to fresh produce. Students in all homerooms will be receiving deliveries of fresh fruit and veggies twice a week (days of the week are TBD and will be determined by Nutrition Services). In CPS, the program is coordinated at the district level by Nutrition Support Services and the Office of Student Health and Wellness. For more information on the program, please refer to the [program handbook](#) or [nutritional fact sheets](#) on the various produce offerings. Prescott is excited to provide our students with the opportunity to broaden their taste bud preferences that will also improve their health and well being. See Asst Principal Meghan Breyer with questions.

## Covid guidance and weekly testing registration

The district will continue to offer weekly in-school COVID-19 testing program next year. Importantly, any student or staff who wants to participate this year must fill out a new consent form. [Click here](#) to complete the testing consent form for this school year.

Consent forms from last school year or this summer will not be valid for the 2022–23 school year. However, once a student or staff member has consented this year, that consent will remain in place until they leave CPS.
